# Kuzin Petr

Belarus, Vitebsk • +375257729344 • itlearn.ku@gmail.com • linkedin.com/in/kuzin-peter-68b111250

**Frontend Developer, Software Engineer, Backend Developer**

Skilled in modern technologies and frontend frameworks (React, Next.js, Zustand, TailwindCSS, TypeScript) and backend technologies (Node.js, Nest.js, Express.js). Proficient in relational database design (MySQL, SQLite) and REST API integration. Adept at adaptive and responsive layout implementation, delivering seamless user experiences across devices.

## WORK EXPERIENCE

**VOIRO**                                                                                    **03/2025 - Present**
Education company
**software developer • Full-time**                                                      **Vitebsk**
Full-stack development in the Node.js technology stack

**RevampIT**                                                                              **09/2024 - 02/2025**
Software development company
**Frontend Developer • Full-time**                                                       **Russia**
Node.js stack. (Next.js, React.js)

**SagTech**                                                                               **08/2024 - 09/2024**
software development company
**developer • Full-time**                                                                **Warsaw**
backend development, Node.js stack (Nest.js, Prisma, Docker)

**JUNION – IT сообщество**                                                               **10/2022 - 05/2023**
